HOBBIES

TYLER BAUM

JAVA, PYTHON, & WEB DEVELOPER

OBJECTIVE

Software developer looking to apply my skills towards real world problems, and further develop my skills through strong mentorship and practical experience.

RELEVANT EXPERIENCE

FRONT-END WEB DEVELOPER

TreeForge / March 2019—Present

- Designed and developed advertising and e-commerce sites for clients.
- Built an e-commerce site that saved the client over 300 hours in labor and increased revenue by 20% in the first year.
- Linked sites to DatoCMS content management services to permit the clients to update site content and layout at their leisure.
- Managed contract workers in the creation of media assets and web designs.

CNM INGENUITY DEEP DIVE CODING

Java+Android Bootcamp / September 2020—December 2020

- Attended Cohort 11 remotely for 40 hours each week and gained experience in working independently and as part of a team in a remote environment.
- Designed and built several Android apps and Java programs utilizing Spring, Hibernate, JavaFx, JUnit5, and SQL.
- Acted as project leader for AlbuQuirky, one of four final capstone projects.

A.P. CASHIER W/ SOFTWARE RESPONSIBILITIES

Century Automotive Service Corporation / April 2018—July 2020

- Designed, built, and implemented custom software solutions to improve work flow and increase efficiency.
- Created processes that increased productivity by up to 93%.
- Managed relationships and processes for VIP accounts that were of high value to the company.
