## HOBBIES

# TYLER BAUM

## JAVA, PYTHON, & WEB DEVELOPER

## OBJECTIVE

Software, app, and web developer looking to apply new-found skills in several popular languages and frameworks, and further develop and add to this list of skills through strong mentorship and practical applications.

## RELEVANT EXPERIENCE

### FRONT-END WEB DEVELOPER

**TreeForge / March 2019—Present**

- Designed and developed advertising and e-commerce sites for clients.
- Built an e-commerce site that saved the client over 300 hours in labor and increased revenue by 20% in the first year.
- Linked sites to DatoCMS content management services to permit the clients to update site content and layout at their leisure.
- Managed contract workers in the creation of media assets and web designs.

### CNM INGENUITY DEEP DIVE CODING

**Java+Android Bootcamp / September 2020—December 2020**

- Attended Cohort 11 remotely for 40 hours each week and gained experience in working independently and as part of a team in a remote environment.
- Designed and built several Android apps and Java programs utilizing Spring, Hibernate, JavaFx, JUnit5, and SQL.
- Acted as project leader for AlbuQuirky, one of four final capstone projects.

### CLAIMS PAYMENT CASHIER W/ SOFTWARE RESPONSIBILITIES

**Century Automotive Service Corporation / April 2018—July 2020**

- Designed, built, and implemented custom software solutions to improve work flow and increase efficiency.
- Created processes that increased productivity by 93%.
- Managed relationships and processes for VIP accounts that were of high value to the company.
