Objective

Former customer service and administrative professional, current fledgling software, app, and web developer freshly graduated from the widely-praised CNM Ingenuity Deep Dive Coding Bootcamp. Looking to (remotely) appertain new-found skills in several popular languages and frameworks, and further develop and add to this list of skills through strong mentorship and practical applications.

Skills

- Java, Python, JavaScript, React, SQL, Elm
- Web development with React and Hugo
- Version control with Git through GitHub
- Object-oriented and functional programming concepts
- Parameterized unit testing with JUnit5
- APIs, relational databases (JPA Hibernate), ERDs, wireframes, UI/UX
- Agile methodologies and SCRUM

Experience

CNM Ingenuity Deep Dive Coding Bootcamp, Java + Android
Albuquerque, NM
September 2020 – December 2020
- Attended Cohort 11 remotely for 40 hours each week and gained experience in working independently and as part of a team in a remote environment.
- Designed and built several Android apps and Java programs using several frameworks and libraries, including JPA Hibernate, JavaFx, JUnit5, and Gson.
- Submitted one of four app proposals chosen by the cohort to be developed as a capstone project.

Claims Payment Cashier, Century Automotive Service Corporation
Albuquerque, NM – (888) 338-0389
April 2018 – July 2020
- Responsible for reviewing invoices and processing warranty payments to clients within a given time frame.
- Designed, built, and implemented custom software solutions to improve work flow and increase efficiency.
- Made modifications to processes that increased team productivity and decreased training time for new hires.
- Placed into specialized roles dealing with VIP accounts where timeliness, professionalism, and accuracy were of the utmost importance.

Night Auditor, Marriott Vacations Worldwide
Orlando, FL – (407) 238-7676
April 2017 – November 2017
- Processed payments and rectified billing issues for guests, including those with tax exemption status.
- Audited and made corrections to reports in the overnight period to ensure occupancy and billing accuracy.
- Compiled apposite data into a daily report that served as a reference document for members of senior management.

Education

CNM Ingenuity Deep Dive Coding Bootcamp	**Homer-Center High School** (a 2008 Blue Ribbon School)
Albuquerque, NM | Graduated December 2020	*Homer City, PA | Graduated June 2010*
Java + Android Boot Camp Cohort 11	

Other Skills and Experience

- Interpersonal communication skills, ability to empathize with others due to extensive customer service experience, adaptability, affinity for solving problems creatively, time management, project management, working and collaborating remotely, technical documentation, conflict resolution and de-escalation
